

FIRE COMMAND

The closest you may ever get to your dream.

Fire Command is a next-generation serious game placing players in command of a fire department fire crew. From high-rise infernos to Everglades brush fires, every call is unique. Manage crews, operate authentic apparatus, and make tough calls when seconds count.

Features

 **Authentic Fire Apparatus** – Engines, ladders, rescues, ambulances.

 **Dynamic Environments** – Weather, day/night.

 **Play in Multiple Roles** – Dispatcher or firefighter.

 **Tool & Crew Management** – Gear loadouts, Apparatus breakdowns, & upgrades.

 **Real world map of Miami-Dade Co., FL** – Port, suburbs, Everglades,.

About Hotel Games Studios

Hotel Games, founded in 2018, plans to be a major developer and marketer of PC games worldwide. With a focus on simulation and serious games our studio intends on fulfilling a market hungry for interactive gameplay neglected by major gaming developers. Our flagship game, Fire Command, is currently under development. Hotel Games seeks talented and dedicated modelers, animators, and programmers who would like to join a company with opportunities for growth.

FAQ

How large is the Fire Command map?

The Fire Command map is a vast, recreation of Miami-Dade County, Florida — one of the most diverse and dynamic regions in the United States.

Is an internet connection required?

Not for core gameplay. Online/multiplayer requires internet. LAN is supported.

Will there be expansions or DLC?

Yes — new regions and features are planned post-launch.
